

**MASTER ON ENERGY CONVERSION SYSTEMS AND TECHNOLOGIES**  
**COURSE 2023/24**

**Exams (verification test and 2nd call):**

<b>Subject</b>	<b>Verification test</b>	<b>2nd call</b>
Advanced Thermodynamics Engineering	24/01/2024	7/02/2024
Determination of Thermodynamic and Transport Properties of Fluids	23/01/2024	6/02/2024
Renewable Energy Technologies	26/01/2024	9/02/2024
Modelling and Dynamic Simulation of Energy Conversion Systems	25/01/2024	8/02/2024
Air Conditioning and Energy Saving in Buildings	22/01/2024	5/02/2024
Creation, Planning and Management of R&D&I Projects	-	21/06/2024
Thermal Energy Conversion Technologies	6/06/2024	20/06/2024
Polygeneration of Energy and Energy Integration	4/06/2024	18/06/2024
Integrated Laboratory On Energy Conversion Systems	7/06/2024	-
Characterization and Modelling of Energy Demand in Building	3/06/2024	17/06/2024
Renewable Power Systems in Smart Grids	5/06/2024	19/06/2024

**Class timetable: 1-2 PM (Spain time)**
