

MASTER ON ENERGY CONVERSION SYSTEMS AND TECHNOLOGIES 2026/27

<b>1º Cuatrimestre</b>	<b>1ª conv</b>	<b>2ª conv</b>
Advanced Thermodynamics Engineering	14/01	4/02
Determining Thermodynamic Properties and Fluid Transport	11/01	1/02
Renewable Energy Technologies	15/01	5/02
Modelling and Dynamic Simulation of Energy Conversion Systems	12/01	2/02
Air Conditioning and Energy Saving in Buildings	13/01	3/02
<b>2º Cuatrimestre</b>	<b>1ª conv</b>	<b>2ª conv</b>
Thermal Energy Conversion Technologies	17/05	22/06
Polygeneration of Energy and Energy Integration	22/05	20/06
Integrated Laboratory On Energy Conversion Systems	-	23/06
Characterization and Modelling of Energy Demand in Building	21/05	19/06
Renewable Power Systems in Smart Grids	28/05	21/06
