Their functions can be found in article 19 of the Regulations Governing Teaching:

- Monitor and assess both the implementation of the internal quality assurance system and continuous improvement.*
- Inform the management of the School of Chemical Engineering and all other members about the School's quality policy and objectives.*
- Monitor the efficacy of the processes using the associated indicators.*
- Supervise the plans for improvement resulting from the monitoring and assessment of the internal quality assurance system, and implement all proposals for improvement.*
- Any other functions that the School management team should give them.*
- Approve the composition of the Internal Assessment Committee(s) (CAI) in the accreditation processes.*

The composition of the ETSEQ's Quality Committee was approved by the School Board on 10 December 2019.

The last membership update was approved on February 7, 2025
